

City Facts

Population: 38,000
 Miles of Sewer: 180
 Full time Staff: 6

**Finding Sewer
 Maintenance Issues
 is like Finding a
 Needle in a
 Haystack...**

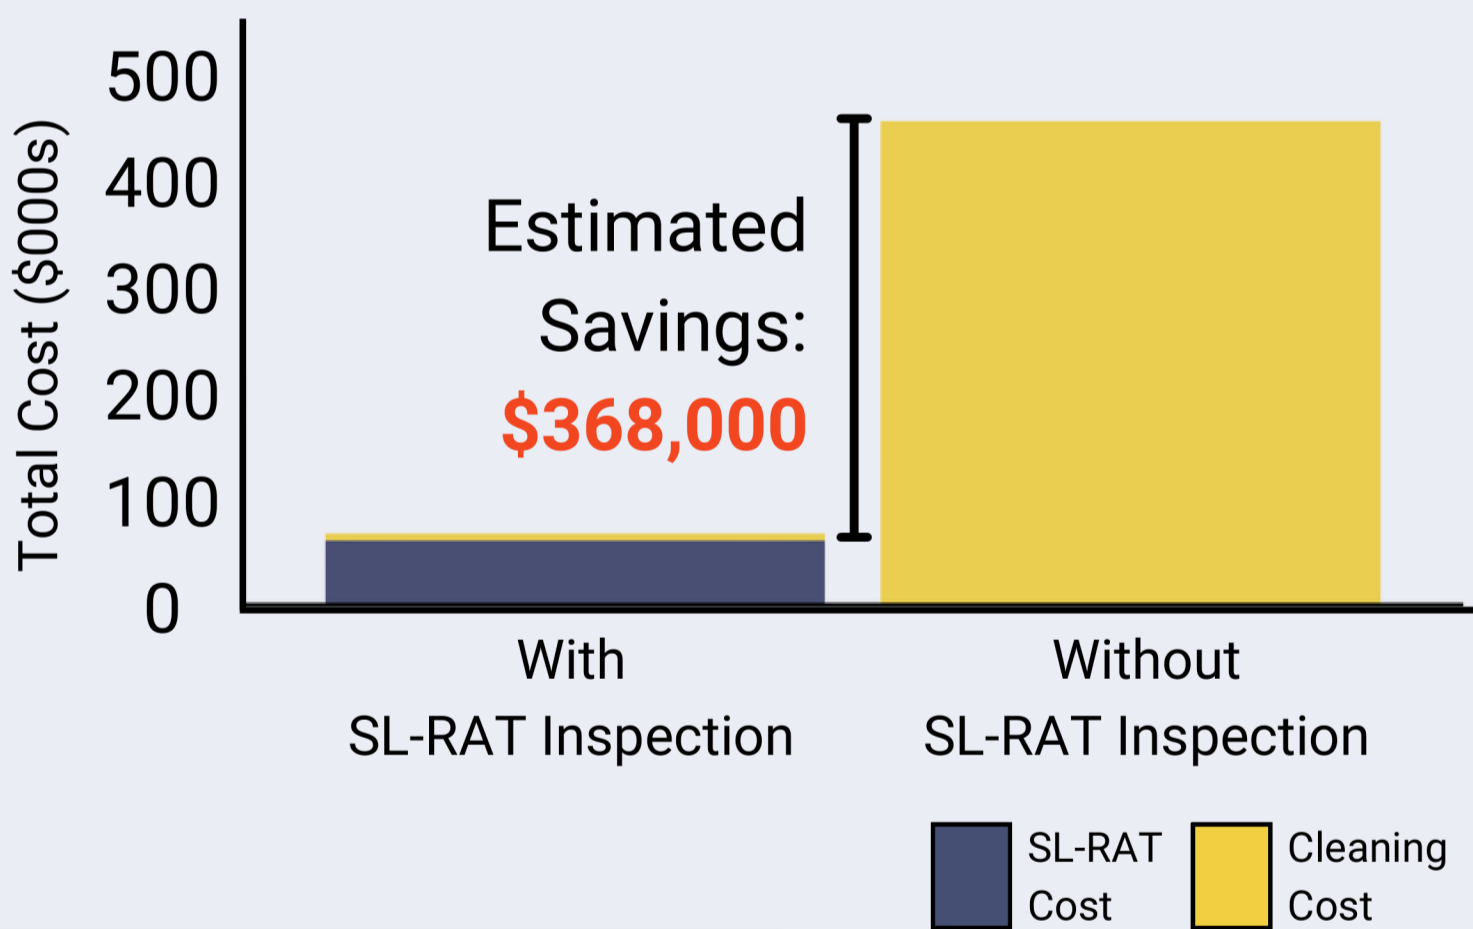

Miles Screened with
 the SL-RAT

54 miles

Miles that Required
 Cleaning

0.6 miles

**...Peachtree City Found Their Problems
 while Saving Over \$350k with the
 SL-RAT**

Problems Avoided During SL-RAT Inspection

- Root Growth
- Asphalt Chunks
- Surcharged Manholes
- Grease Buildup

"Instead of sending a third of our staff out to clean areas that may not need cleaning, we can inspect with the SL-RAT and prioritize our efforts. There are probably 10 instances where the SL-RAT has prevented an overflow we would not have found otherwise."

Jonathan King,

Senior Collection Maintenance Technician
 Peachtree City Water and Sewage Authority
